

PRESS RELEASE

CAR REFINISHES

Product Release: Sikkens Autoclear® Superior 250

Autoclear® Superior 250 is a state of the art clearcoat specifically designed for enhanced properties and performance over Autowave®. It is VOC compliant, contains fewer solvents and is less harmful to the environment. Autoclear® Superior 250 is extremely versatile and can be used for all types of repairs in a wide range of temperatures. It has a faster, more reliable finish and gives the collision shop complete control over the speed of the painting process. It's so easy to apply, that very little training is required.

Note to Editor

Car Refinishes is one of the world's leading suppliers of paints and services for the car repair, commercial vehicles and automotive plastics markets. It sells coatings for car body refinishing, or recoating, to customers including bodyshops, distributors, fleet owners, automotive suppliers and major bus and truck producers. Brands include Sikkens®, Lesonal®, Dynacoat®, Wanda®, and Autocoat® BT. Operating in more than 60 countries, Car Refinishes has specialists around the world who understand local markets and can serve local needs. Its state-of-the-art customer services, color and technology solutions include offering technical and logistical support and the delivery of training programs.
